FOR IMMEDIATE RELEASE

Contract Abseiling Limited Accepted as Supplier on ProcurePublic

[Hatfield, 10th September 2026] – Contract Abseiling Limited, a leading specialist rope access and external building maintenance contractor, is pleased to announce that it has been accepted and listed as a supplier on ProcurePublic, a procurement platform connecting public sector buyers with approved suppliers throughout the UK.

The appointment represents a significant milestone for the company and further strengthens its ability to support public sector organisations, housing associations, local authorities, contractors and commercial clients with specialist access and maintenance solutions.

Established in 2011, Contract Abseiling Limited has earned a strong reputation for delivering safe, efficient and cost-effective rope access services across a wide range of sectors. The company's expertise includes reactive maintenance, roofing works, leak detection, façade inspections, external building repairs and planned maintenance programmes.

The company's listing on ProcurePublic provides buyers with direct access to its supplier profile and service offering, helping procurement professionals identify capable and accredited contractors for construction, maintenance and specialist access requirements.

"Being accepted onto ProcurePublic is a fantastic achievement for our business," said **Kay Man**, Managing Director of Contract Abseiling Limited.

"This recognition demonstrates our continued commitment to quality, safety and excellent service delivery. It provides greater visibility of our specialist rope access capabilities within the public sector and creates new opportunities to support organisations seeking efficient and innovative solutions for challenging access projects.

We are proud to join a network of trusted suppliers and look forward to building new relationships with procurement professionals, housing providers and contractors across the UK."

The announcement builds upon a series of recent achievements for the company, including obtaining **ISO 9001:2015 certification** and maintaining **Constructionline Gold Membership**, alongside accreditation through **SafeContractor**, **CHAS via SSIP Acclaim**, and **UKAS-recognised quality management systems**.

These credentials reflect Contract Abseiling Limited's ongoing investment in quality management, health and safety, operational excellence and continuous improvement, providing clients with confidence that projects will be delivered to the highest professional standards.

By utilising rope access techniques, Contract Abseiling Limited enables clients to reduce disruption, minimise project costs and access difficult-to-reach locations more efficiently than many traditional access methods. The company's IRATA-qualified technicians combine specialist access expertise with practical trade skills, delivering solutions that maximise safety, speed and value.

As the business continues to expand its presence within the public and private sectors, the ProcurePublic supplier listing further reinforces its position as a trusted partner for specialist access, maintenance and building repair projects throughout the United Kingdom.

About Contract Abseiling Limited
